

Quality Assurance Policy

ABS Solutions is driven to excel as a leader in the construction arena, providing our customers confidence in the quality of delivery, without compromising on safety or the environment.

We are committed to complying with the requirements of AS/NZS ISO 9001:2008.

In making this commitment there is an expectation that we will always provide goods and services which are on specification, on time and within budget.

To this end, we have put in place a Quality Management System to:

- Ensure that the customers' requirements are accurately identified;
- Ensure that appropriate skills and other resources are provided and to allow a safe work environment;
- Monitor all work for compliance with requirements;
- Ensure all legal and regulatory requirements are complied with;
- Ensure Quality Policy and Objectives are communicated and understood throughout the organisation;
- Ensure continuous improvement through regular review of the effectiveness of the Quality Management System;
- By ensuring successful project outcomes, and customer satisfaction, ABS Solutions also ensures continuing success for the company and all employees.

By ensuring successful project outcomes, and customer satisfaction, ABS Solutions also ensures continuing success for the company and all employees.
