

Whatever the problem we'll find the solution

COMPANY PROFILE

Introduction

ABS Solutions is a Chartered & Registered Building Company in Western Australia, South Australia and Queensland (BRN 101045). ABS Solutions holds a Western Australian Plumbing/Gas Contractors Licence (PL 5436 – GF 6209), and also a Restricted Asbestos Licence (WARA 1665).

ABS Solutions are members of the following associations and support their policies and procedures

- Master Builders Association
- Master Plumbers Association
- Pump Industry Australia
- Water Industry Operators Association of Australia

It is the intention of ABS Solutions to build on the reputation of the last 25 years, providing proactive and reactive responses to some of WA's largest industry clients.

ABS Solutions always strives to identify the elements needed to succeed in a demanding industry, utilising our key strengths, and our resource links in construction, design and project management.

At ABS Solutions, we have employed the best people in the industry with experience, drive and the capability to create a competitive team within this business sector. With a combined 65 years of reputable experience from all areas of the construction industry

- Residential
- Government
- Commercial
- Industrial projects
- Maintenance
- Refurbishment

ABS Solutions are a forward-thinking company, specialising in

- Creative design, problem solving, with technical and analytical expertise.
- First rate engineering solutions to ensure minimum disruption to our client's business, ensuring quick effective changes and improvements.
- Proven multitasking capabilities, with the ability to plan, prioritise and manage large complex projects under tight time frames.
- Managing large construction teams, contractors and projects from inception to completion.
- Being the preferred contractor of choice, across all elements, including innovation, quality, time and cost.

OHSE Commitment

ABS Solutions operate under the strictest OHSE Policies and Procedures, and are a fully accredited contractor, pre-qualified with a Grade A rating for the Water Corporation WA and Perth Regional Alliance (PRA) programmed.

Our team have a thorough knowledge of the permit system that is implemented prior to any work commencing.
